

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 4+ years of experience architecting scalable microservices and modern web applications. Specialized in backend architecture using Java Spring Boot and PostgreSQL, alongside high-performance frontends built with React.js, Vite, and Tailwind CSS. Experienced in designing AI-driven RAG pipelines with vector databases, optimizing API throughput, and code-quality protocols for enterprise platforms.

TECHNICAL SKILLS

Frontend: React.js, Vite, Redux Toolkit, Tailwind CSS, JavaScript (ES6+), HTML5, CSS3, Formik, Axios
Backend: Java, Spring Boot, Node.js, RESTful APIs, Microservices Architecture
Databases & AI: PostgreSQL, pgvector, MongoDB, LLM Integrations (Groq, OpenAI, Gemini)
Cloud, DevOps & Tools: Docker, SonarQube, AWS, Git pre-commit hooks
Security & Testing: JWT, OAuth 2.0, RBAC, Jest, React Testing Library

PROFESSIONAL EXPERIENCE

Software Engineer Jul 2026 – Present
Tata Consultancy Services (TCS)

- Developing and maintaining scalable full-stack applications and polyrepo microservices using Java Spring Boot and React.js.
- Collaborating with cross-functional teams to enforce code quality, optimize database interactions, and ensure high availability for enterprise clients.

Software Engineer Feb 2022 – Jun 2026
Indus Net Technology

- Architected backend microservices for a comprehensive Cybersecurity Insurance platform using **Java Spring Boot** and **PostgreSQL**, successfully managing complex policy administration, audit logging, and secure payment processing.
- Built and launched **Interviewer Assistant**, an AI-powered SaaS platform. Designed **RAG pipelines** integrating PDF parsing, **pgvector** embeddings, and LLM APIs to automate resume analysis and generate dynamic technical questions, complemented by live WebRTC evaluation.
- Modernized frontend architecture by migrating to **Vite**, managing complex application state with **Redux Toolkit**, handling data workflows with **Formik** and Axios interceptors, and styling with **Tailwind CSS**.
- Led the end-to-end development of **DevSyncHub**, a developer collaboration platform featuring an interactive markdown editor, dynamic dashboards, and secure token-based authentication.
- Enforced strict software quality gates across projects by integrating **SonarQube** and engineering custom Git pre-commit hooks to validate conventional commit standards.

AWARDS

PATONTHEBACK Award Apr 2025
Recognized for technical ownership, leadership, and successful end-to-end delivery of high-impact production modules.

EDUCATION

Master of Computer Applications (MCA), Computer Science Sep 2023 – Nov 2025
Manipal University, Jaipur

Bachelor of Science in Information Technology Management Jul 2017 – Nov 2020
Lakshya Institute of Technology, Bhubaneswar

Full Stack Web Development Program Mar 2021 – Dec 2021
Masai School, Bangalore
